

Update for Lot Q Permit Holders:

Please pick up your Lot Q hangtag as soon as possible. There is currently active enforcement in Lot Q. It is important that you update your vehicle information and pick up your hang tag to avoid being tagged if you have not already done so.

Beginning the evening of Sunday November 17th up until the end of day on Tuesday November 19, there will be a closure of parking lot Q to transponder holders and visitor parking.

Through this time, alternative parking will be available in parking Lot I and your transponder will allow you to enter and exit the lot freely.

As of Wednesday November 20th, please resume parking in Lot Q.

There will be further closures of parking Lot Q and you will be notified in advance by email of the closures.

Update for Lots M, N and P Permit Holders:

Transponder holders who park in Lot M, N and P can expect traffic delays along the section of Cootes Drive entrance and west away road on Tuesday November 19th. The expected delay is due to an oversized truckload delivery to the campus. Those who travel in this area are encouraged to allow extra time to get to the parking lots.

Update for Lot K Permit Holders:

Transponder holders who park in Lot K can expect traffic delays along the section of Cootes Drive entrance and west away road on Tuesday November 19th. The expected delay is due to an oversized truckload delivery to the campus. Those who travel in this area are encouraged to allow extra time to get to the parking lots.

Update for Lot I Permit Holders:

Beginning the evening of Sunday November 17th until the end of day on Tuesday November 19, there will be parking restrictions in a sector of Lot I with a decrease in the number of parking spaces. The closure is required for the off load of equipment for the NF91 substation Project. During this time, parking will be limited and alternative parking will be available in Lot M or Lot P.
