

Interim Stop for Shuttle Service Notice

New Interim Main Campus Shuttle Stop

Effective May 15, 2017

The main campus shuttle stop will relocate to the west side Mary Keyes Residence where the existing Inter City Bus Stop

To accommodate the expansion and improvement of facilities to Arthur N. Bourns, Nuclear Research Building and E.T. Clarke Centre the access road south of E.T. Clarke will be limited to construction and delivery vehicles only. These projects will alter the Shuttle Bus route and the location for passenger pickup/drop off. The interim main campus shuttle stop will relocate to the west side Mary Keyes Residence where the existing Inter City Bus Stop is. Pedestrian traffic will then flow either through Mary Keyes Residence or in the access road between Mary Keyes and Bates Residences.
